### Immediate Report on an Event Outside the Ordinary Course of Business that its release was delayed in accordance with Regulation 36(b) of the Securities Regulations (Periodic and Immediate Reports), 1970

Regulation 36(b),(c) of the Securities Regulations (Periodic and Immediate Reports), 1970

#### Nature of the Event: Acquisition of Acatris Health

**Frutarom Industries Ltd. ("Frutarom")** announced that on Sunday, October 1, 2006, it signed an agreement for the acquisition of 100% of the issued and paid up share capital of the American Acatris Inc., the Dutch Acatris Specialities Holding B.V. and the Belgian Acatris Belgium N.V. (together hereinafter referred to as: "**Acatris Health**"), in consideration for a cash payment of Euro 10.5 million paid upon signing the acquisition agreement from Frutarom's own resources. The acquisition was executed through Frutarom's wholly owned subsidiaries.

Acatris Health, a global health ingredients company in Belgium and the Netherlands, is a member of the Dutch Royal Schouten Group N.V. Acatris Health is engaged in the development, production, sale and marketing of unique and innovative botanical ingredients for the dietary supplement and functional food markets. Acatris Health's LifeLine product range includes Linumlife, Fenulife, and SoyLife, which are strong, reputable product brands and enjoy both licenses and patents that effectively promote and protect the sales of these clinically-proven natural health ingredients. Acatris Health sells its products to over 450 leading companies in the food supplement, functional food and cosmetic markets, largely in Western Europe and the United States.

With its staff of 38, Acatris Health has achieved sales of \$14.7 million (11.6 million Euro) in 2005 with margins similar to that of Frutarom's Fine Ingredients Division. Frutarom expects that Acatris Health's activities will grow in the coming years at an above-industry rate largely due to increased sales of its unique, branded, proprietary patented products that enjoy above average profitability.

The acquisition of Acatris Health is an important strategic acquisition for Frutarom that represents another step in the implementation of Frutarom's rapid growth strategy. The acquisition of Acatris Health will significantly strengthen Frutarom's unique, natural product portfolio that is offered to its customers, particularly in the dietary supplement and functional food markets that are enjoying rapid growth, as well as strengthening Frutarom's leadership position in these markets.

A high degree of synergy exists between the current activities of Acatris Health and Frutarom, which Frutarom will diligently work to realize. Acatris Health's activity will be merged within the global structure of Frutarom's Fine Ingredients Division, and will be combined with the successful activity of Flachsmann Switzerland, acquired by Frutarom in 2003.

In accordance with Regulation 36(c) of the Securities Regulations (Periodic and Immediate Reports) 1970) (the "**Regulations**") the company states that, due to the confidential selling process conducted by the sellers, and due to the concern that reporting the transaction at an earlier date might have adversely impacted its conditions for Frutarom and jeopardized its execution, Frutarom's Board of Directors decided based on Section 36(b) of the Regulation to defer any publication regarding the transaction until its completion.

On October 1, 2006 at 12:30 PM, the cause for the delay was removed.

Sincerely yours,

Eyal Shohat, Adv.  
VP Legal Affairs and Corporate Secretary

Haifa, Israel - August 22, 2006. Frutarom (LSE: FRUTq, TASE: FRUT, OTC: FRUTF)

Further to recent years, during the second quarter of 2006 Frutarom achieved growth in sales, while continuing to implement its growth strategy, combining organic growth in core activities (at rates above the industry average), with strategic acquisitions of activities and know-how in the Company's main fields of business and in strategic geographic regions.

Frutarom's sales for the second quarter of 2006 totaled US\$ 72.3 million, showing growth of 7.9%, compared with the same quarter of 2005 (sales increased by 7.3% excluding currency effect). Sales for the first half totaled US\$ 143.3 million, growing 8.7% compared with the first half of last year (sales increased by 11.1% excluding currency effect).

The following factors were the main contributors to the growth in sales during the quarter:

- Nesse, whose acquisition was completed at the beginning of the year, contributed

about US\$ 8.9 million to second quarter sales; the integration of Frutarom's and Nesse's activities is proceeding very successfully, and Frutarom continues working to realize the considerable synergy included in this strategic acquisition, while utilizing the many cross selling opportunities resulting from it.

- Growth in the sales of flavors produced and sold by the Company's Flavors Division.
- Utilization of the synergy and cross selling opportunities between Frutarom's Divisions and between customers and products, both existing and those added through the acquisitions made in recent years.

The increase in sales was offset by the following factors:

- A sharp price decrease, compared with the same period in 2005, in several natural raw materials (mainly grapefruit, vanilla and natural gums) that are sold by the Fine Ingredients Division to the food, flavor and fragrance industries. This decrease in prices also influenced the selling prices of flavor compounds produced by the Flavors Division using these natural raw materials. The prices of these raw materials rose sharply last year due to severe weather conditions in their growing regions. The drop in the prices of these raw materials and their return to normal levels derives from their steady supply this year.
- The ongoing, planned improvement in the product mix of the food systems activity, which began during the second half of 2005 and will be achieved by shifting from low margin products to unique products with high added value and higher margin than average.

Sales during the first half of the year were also influenced by:

- Weakening of the Western European currencies (in which most of Frutarom's sales are made) against the US dollar.
- The relatively long, cold European winter, which continued until May, leading to postponed demand for Frutarom products used in the manufacture of beverages, ice cream, yogurt and other summer products. In the last few months this trend has reversed and Europe is having relatively hot weather.
- A decline in the Trade & Marketing activity of products which are not manufactured by Frutarom in the Israeli market (this activity is not a core business for the Company).

Gross profit for the second quarter totaled US\$ 26.3 million compared with US\$ 26.9 million, a decline of 2.4%. Gross margin for the second quarter reached 36.3% compared with 40.1% during the same quarter in 2005. The main influence on gross profit and gross margin during the quarter comes from the decline in selling prices of the natural raw materials mentioned above, which are sold by Frutarom's Fine Ingredients Division to the food, flavor and fragrance industries, and from the increase in the prices of synthetic raw materials used by both Divisions for their production, due to the rising prices of energy and fuel in the world. Frutarom estimates that the influence of the lower natural raw materials prices is temporary in nature, and that the recent stability in raw materials prices will contribute to improving the Company's profit margins during the coming

quarters. Further, Frutarom works assiduously to raise the selling prices of its products to achieve improvement in its profit margins in the near future. Gross profit grew during the first half of the year to reach US\$ 53.3 million compared with US\$ 51.9 million in the first half of 2005. During the first half of the year gross margin reached 37.2% compared with 39.4% in the same period last year.

Operating profit during the second quarter of 2006 totaled US\$ 97. million compared with US\$ 11.6 million in the same quarter of 2005. Operating profit during the first half of 2006 totaled US\$ 20.0 million compared with US\$ 20.8 million in the first half of 2005. Operating margin for the quarter reached 13.4% compared with 17.2% in the second quarter of 2005, and to 14.0% during the first half of 2006 compared with 15.8% during the first half of 2005. The decline in gross profit and in gross profitability resulted in a decline in operating profit and operating margin.

Net profit for the second quarter rose 2.2% to US\$ 8.6 million compared with US\$ 8.4 million in the same quarter of 2005, and net margin reached 11.8% compared with 12.5%. A one time reduction of US\$ 1.5 million in the Company's taxes on income, resulting from tax arrangements made recently in Germany following the Nesse acquisition in January 2006, contributed to the Company's net profit. Net profit for the first half of 2006 rose 14.4% to reach US\$ 17.4 million compared with US\$ 15.2 million for the first half of 2005. Net margin also rose, reaching 12.1% compared with 11.5% in the same half in 2005.

Earnings per share for the second quarter maintained the same level as during the same quarter of 2005 reaching US\$ 0.15. Earnings per share for the first half of the year totaled US\$ 0.31 compared with US\$ 0.28 during the first half last year.

*Ori Yehudai, Frutarom Group's President and Chief Executive Officer* commented: "Frutarom's management continually seeks to find and execute strategic acquisitions. Frutarom is in contact with several companies that are interesting candidates for potential acquisition, mainly in countries and markets where we already have significant activity." With regard to the war in the north, *Yehudai* said that "Frutarom's two sites in the north—in Haifa and in Acco—which employ some 300 people, operated on a regular basis and supplied the orders of the Company's customers in Israel and worldwide. Frutarom's Board of Directors and management express their appreciation and thanks to the Company's employees in Israel for their extraordinary efforts."

*Yehudai* concluded by saying that "Frutarom will continue to invest considerable resources in realizing its rapid growth strategy, combining profitable organic growth of core activities with strategic acquisitions of activities and know-how in its main fields of business and in strategic geographic regions with the aim of achieving our ambitious goals while creating value for our shareholders."

#### Background on the Company
